

Antony Merle

Junior Web Developer

Experience

Since 2016: Head of Academic Libraries IT Services at Pau's University, France.

Web Development:

- [ISTEX-UPPA](#) : a search engine that allows exploration of 27 million scientific references acquired as part of the ISTEX program.
- [SISE Analytics](#) : a decision support tool that processes and presents enrollment statistics from the Ministry of Higher Education and Research.
- [Docelec Snitch](#) : an automatic monitoring tool that detects problems accessing the university's 80 documentary databases, generates a report, and sends notifications by email.
- [Déproxificateur](#) : a web scraper that provides access to electronic documentation for external readers of university libraries.
- [UPPA anti-phishing](#) : a Chrome/Firefox browser extension designed to protect university email users from certain recurring phishing emails.
- [Resa-SCD](#) : a library seat, rooms and resources booking application.
- [Quitus-SCD](#) : an automated issuance of official administrative documents for UPPA students.

Academic Projects :

- [Board.lease](#) : MVP of a mobile website for renting surfboards between individuals developed in 10 days.

Stack

Languages :
